Roof hook Rapid\textsuperscript{2+} Slate

The fastener for shingle roofs

- Quick and easy assembly
- Suitable for many types of shingles
- Covering plate with elastic connection apron
- Direct transmission of load into the rafters
- 25-year warranty* 

The roof hook Rapid\textsuperscript{2+} Slate was designed especially for the fastening on roofs with shingle covering on a batten substructure and narrow roof rafters. The cut-out that is required for the fastening of the roof hook is covered with the covering plate (Slate). The sealing piece between the roof hook and the shingle serves as a protection from water.

The fastener is available in 2 designs:

Item number 102002-001 Roof hook Rapid\textsuperscript{2+} Slate 75 kit
for slate overlappings up to 75 mm

Item number 102002-002 Roof hook Rapid\textsuperscript{2+} Slate 125 kit
for slate overlappings up to 125 mm

Wood screws not included in the scope of delivery!
3 screws with a diameter of 6 mm respectively
2 screws with a diameter of 8 mm.
Make sure that the required screwing depth is maintained!
